

SupplyChain@Syracuse

Featuring the same curriculum content as our on-campus program established in 1919, the online M.S. in Supply Chain Management program from the Martin J. Whitman School of Management prepares students to oversee the life cycle of a product and create efficient supply chains that improve an organization's bottom line.

Curriculum Overview

Designed to prepare students to create efficient and resilient supply chains, the curriculum covers topics such as risk management, financial management, and the development of innovative and digital supply chain strategies. Courses will also train students to make meaningful decisions in the fast-moving marketplace and help their organization match product demand.

Students are able to tailor their education to their career goals through electives and management foundation courses in addition to completing the following core courses:

- Data Analysis and Decision Making
- Operations and Supply Chain Management
- Principles of Management Science
- Supply Chain & Logistics
- Strategic Sourcing

Industry Demand

As product demand shifts and industries evolve, companies have been seeking out professionals with the expertise needed to develop stable supply chains. According to a report from the Graduate Management Admissions Council (GMAC), about **a quarter of U.S. companies looking to hire MBA candidates are also looking to hire those from a supply chain master's program.**¹

A Flexible Program Structure

With classes and coursework delivered in a dynamic online format, SupplyChain@Syracuse allows students to:

- schedule courses around a full-time work schedule;
- live anywhere or continue traveling for work; and
- complete a degree in as few as 15 months.

Class Start Dates

January, April, July, October

GMAT Waiver Policy

Qualified applicants may be eligible for a GMAT waiver. There are a variety of ways to meet waiver requirements including, but not limited to, at least one year of professional work experience or an undergraduate GPA of 3.0 or above.

Total Credits

30 Credits to Complete

A Top-Quality, Collaborative Education

SupplyChain@Syracuse students learn to leverage innovative supply chain strategies through an intensive, highly collaborative learning format. You can be confident your employees are receiving a world-class education thanks to elements such as:

- small classes that average 15 students, led by faculty who are supply chain experts;
- one-on-one sessions with professors during live office hours;
- dynamic coursework; and
- collaboration with classmates both in and out of the classroom.

ROI for Your Company

In addition to helping your employees develop new functional skills, providing financial support offers a number of short- and long-term benefits for your organization:

The SupplyChain@Syracuse curriculum is designed to train students to identify inefficiencies and find ways to improve an organization's product life cycle.

Because employees can attend SupplyChain@Syracuse while working full time, they will be able to apply skills gained in the classroom directly to their role.

Your employees will network with students and Orange alumni across a variety of industries and connect on the best practices being employed for supply chain problems similar to the ones you may face.

Offering tuition benefits can help attract new, high-caliber candidates to your company and provide an incentive for employees to remain with your company for a longer period of time.

If you're interested in learning more about the program and how it could benefit your employees, we invite you to join us for a live, online information session where you can meet faculty and experience the online learning platform firsthand. You can view upcoming information sessions on our events page.
